

# Symmetric Solutions

675 Old South Head Road VAUCLUSE NSW 2030

---

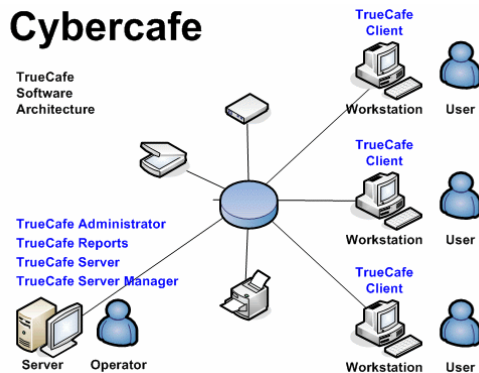

## Your very own Internet Café

We have the technologies ready to provide you an affordable Internet Café solution. Combining terminal system and a great software called TrueCafé, we can significantly improve your total cost of ownership ratio and at the same time lower the amount of administration effort required.

### ► **The Symmetric Solution:**

A decent machine installed with a pair of Ncomputing X300 packages (or a number of L230 terminals depending on Your needs), Windows XP and the TrueCafé ticketing and management software.

You don't need to maintain many computers anymore, only one, because Ncomputing centralizes all administrative tasks. All you need is to take care of the central box. The TrueCafé software gives you a hand with any pricing scheme you have in mind. It automatically charges Your customers for Internet and printer usage. The software protects your system by limiting the number of accessible applications and functions. Warning is issued if the user have critical amount of time/money left. Customer can order food/drinks/services directly from their station.

- Internet Kiosk
- Monitor
- Mouse, Keyboard
- Operating System, Billing and management software included
- Installation and support
